

Parent Access to School Spider

We would like to restart using School Spider to book parent teacher meetings, signing up for after school clubs etc.

Every parent/carer in the school has access to this service.

You need to visit <https://parents.schoolspider.co.uk/auth/login> or at the bottom of our school website page where there is a parent login option which will take you to this screen.

Your username will be the email address that we have registered on our school system. However if you have forgotten, click on either forgotten password or create an account.
